

Sidewall Conveyor Belt

Feature:

- 1) Increase the transporting capacity to 4 times compared to standard conveyor belts.
- 2) Save installation space due to the possibility of increasing the angle of inclination up to 90°.
- 3) Protect the material from friction by solid cleats mounted on the belt.

Height (mm)	Base Width (mm)	Weight (kg/mm)	Min Pulley (Dia/mm)	Production (Length/m)
35	55	0.50	100	3/5
